

Syria exports solar panels

Overview

Investment is beginning to return to the country with the lifting of U. Whether it's investigating the financials of Elon Musk's pro-Trump PAC or producing our latest documentary, 'The A Word', which shines a light on the American women fighting for reproductive rights, we know how important it is to parse out the facts from the messaging. At such a critical moment in. After more than a decade of war, destruction, and international isolation, Syria is taking a hopeful step toward solving one of its deepest problems — the national energy crisis. Al-Jenan went thousands of dollars in debt to buy his solar panel in 2019. It was an expensive coping mechanism at the time, but. This report was produced as part of the second round of Al-Jumhuriya's Grant Program for Syrian Women Journalists, which supports the production of in-depth journalistic projects related to topics of public interest in Syria or Syrian diaspora communities. For years, the country has struggled with intermittent electricity supply, primarily due to the devastating effects of a prolonged civil war and crippling international sanctions.

Syria exports solar panels
