

The latest energy storage policy for Montenegro power grid

Overview

The utility is procuring two grid-scale battery storage systems to the tune of EUR 48 million (\$55. EPCG, the Electric Power Company of Montenegro, will launch a public tender for the procurement of 300MWh of battery energy storage system (BESS). Montenegro has taken a decisive step in its energy transition by adopting its National Energy and Climate Plan (NECP) and approving a new bill governing cross-border electricity and natural gas exchange. Montenegro's energy landscape reflects a blend of historical reliance on hydropower, particularly through. August 7 (SeeNews) - Montenegrin state-owned power utility Elektroprivreda Crne Gore (EPCG) said on Thursday it is set to launch a tender for the supply of two battery energy storage systems (BESS) with a total capacity of 240 MWh.
