

The latest tricks of photovoltaic panel scam

Overview

The criminals are leaving unsuspecting homeowners with massive debt; many victims have reported losing tens of thousands of dollars. With that demand comes fierce competition within the solar panel market. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy. Solar panel fraud has become a growing concern in the United States, leaving many homeowners stuck with hidden fees, inflated energy bills, and contracts they never fully understood. The solar industry attracts both honest companies and clever con artists—here's how to tell them apart. Why trust EnergySage?

Your social media feed is probably full of them: ads promising free solar panels, guaranteed savings, or special government programs that'll pay you to go solar.
