

Wanda Photovoltaic Energy Storage

Overview

With the rise of new energy and energy storage sector, the Longgang Wanda project underscores the advantages of user-side energy storage, including peak shaving, increased power backup capacity, cost reduction, and enhanced efficiency. 23 November 2023 marked a significant milestone for NEFIN as they conducted a completion and delivery ceremony for the Shenzhen Longgang Wanda 2MW/4MWH energy storage project, successfully integrated into the grid. Representing NEFIN's inaugural venture into industrial and commercial energy storage. The Sunplus Hybrid Storage Inverters are designed to increase energy independence for homeowners and commercial users. The Hybrid Inverter power range is from 3kW to 60kW, compatible with low voltage (40-60V) batteries and high voltage (150-800V) batteries. *Did you catch the California blackouts last month?

* That's grid instability in action. The group aims to be a one-stop green mall that integrates PV + energy storage + Electric Vehicle charging stations and providing shoppers with a convenient and sustainable shopping experience. To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an. Formerly known as DLG Electronics, PYTES started its business in Shanghai over 18 years ago.
