

# Washington d c solar energy for homes

## Overview

---

The average solar panel installation costs \$3.01 per watt in Washington, D.C. The federal solar tax credit expired at the end of 2025, but you might still be eligible for other solar incentives. Homeowners with solar panels avoid \$102,449 in total utility costs. Rooftop solar generation is the leading strategy for generating local, clean energy in the densely developed District. Installing solar panels on your home or business is one way that you can help the District achieve its greenhouse gas emission reduction goals. In addition, rooftop solar not only offers some of the most generous solar incentives in the country, helping you save up to 30% of the cost of your system in the first year, but also offers (1) lower energy bills; (2) net metering; and (3) the most generous renewable energy credits in the country. Compare multiple offers and save up to 20%.
