

# What does photovoltaic panel cleaning mean

## Overview

---

Solar panel cleaning services are the process of removing dirt, dust, and other contaminants from the surface of solar panels. Solar power panels work by converting sunlight into electricity, and the efficiency of this process can be reduced if the panels are dirty or covered in. While going solar is pretty much a "set it and forget it" way to power your home with renewable energy, depending on where you live, you'll still need to clean your solar panels once or twice a year to ensure you get the maximum energy benefit from your solar investment. Need solar service?

Connect. In this guide for homeowners with solar power systems, we detail everything to know about solar panel cleaning and maintenance to maximize your clean electricity production and energy bill savings. Proper solar panel maintenance begins with regularly monitoring your system's output. Solar. Solar panels are a long-term energy asset, but they're not completely maintenance-free. Dust, bird droppings, and even snow can diminish their efficiency, so it's a good idea to ensure that panels are kept clean regularly.
