

What is the factory price of photovoltaic bracket

Overview

The cost of fixed mounts typically ranges from \$10 to \$30 per bracket, making it an affordable choice for most homeowners. These brackets are generally made of durable materials such as aluminum or galvanized steel, ensuring longevity and resistance to environmental conditions. As solar installations surge globally, photovoltaic bracket prices remain fluid. Let's break down the numbers: While galvanized steel brackets dominate budget projects (¥36-¥60/m²), aluminum. When considering the cost of solar photovoltaic panel brackets, various factors play a crucial role. The factors that affect solar panel bracket choice include roof type, panel type, roof pitch, weather condition, and the cost of installation. Each material offers unique.
