

# Which wind power plants are there in Kyrgyzstan for communication base stations

## Overview

---

Two power plants with a capacity of 300 MW each will be built in Kyrgyzstan: solar and wind, the National Investment Agency said. Kyrgyzstan has begun construction of its first-ever wind power plant, marking a significant step toward diversifying the country's energy mix and addressing chronic electricity shortages. The project is being implemented by the company Metrum Tech. An error occurred. Rosatom Renewable Energy, the wind energy division of Russia's State Atomic Energy Corporation Rosatom, has signed an investment agreement with the Cabinet of Ministers of Kyrgyzstan to build and operate a 100 MW wind farm in the village of Kok-Moinok, located in the Issyk-Kul region.

## Which wind power plants are there in Kyrgyzstan for communication

51.2V 150AH, 7.68KWH
