

# Will installing photovoltaic panels on the roof cause rain leakage

## Overview

---

Solar panels themselves do not inherently cause roofs to leak. The key to preventing leaks is proper installation and ensuring the roof is in good condition before installation. In the worst-case scenario, roof damage from solar panels can even lead to leaking within a home, which could cause further complications and safety concerns for the property and its inhabitants. From roof damage. In virtually all cases, the answer is no. And if the installer cut corners or skipped a step, you might be the one holding the bill. unless. When it comes to solar panels, leaks are a major concern for most homeowners. This isn't to say that pre-existing.
