

Winch to install photovoltaic panels

Overview

These ladder-style hoists allow you to easily lift solar panels, racking systems, and installation tools directly to the roof. These innovative tools harness renewable energy to power everything from boat lifts and tree removal to construction tasks without relying on traditional electricity or fuel. Why it matters: Solar winches eliminate carbon emissions while reducing long-term operating costs for your outdoor projects. Join me as I install. In this video, we're upgrading our brand new Diamond C gooseneck trailer with a Badland 12,000 lb winch and a full off-grid solar setup! Whether you're into hauling, off-roading, overlanding, or just love an efficient trailer build — this is for you. more In this video, we're upgrading our brand. I need to trickle charge my winch battery on my trailer. How can I do that?

I recommend installing the OptiMate Solar Duo Roof Mount Solar Charging System with Controller # MA49JR which is rated for 10 Watts and 12V batteries from 2 to 240 amp-hours. A pulley system is attached to the top of the ladder.
